AC 20 TM 1800

Stock no.:1022-2347

#### **MACHINE-DATA**

Machinetype : CNC-Vertical Turret Lathe - Single Col.

 Make
 : PIETRO CARNAGHI

 Type
 : AC 20 TM 1800

 Year
 : 2009/2011

Control type : CNC

Control : SIEMENS 840 D

Storage location : Hilden Origin : Italy

Delivery time : Immediately

Quotation : Ex warehouse, loaded on truck

Price : on request

100 kW

## **TECHNICAL DATA**

1800 mm faceplate diameter swing diameter 2000 mm 1270 / 1120 mm turning height SIEMENS 840 D Control workpiece weight max. 5000 kg ram head dimension 250 x 250 mm table turning speeds 1 - 320 U/min cross rail - adjustment 400 mm (X) -2770 / +2275 mm ram head - cross travel ram head - vertical travel (Z) 1250 mm 360° (0,001°) deg c-axis milling drive 37 kW 10 - 3000 U/min turning speed range - milling

Torque 31784 Nm feed range (X/Z) 0,1 - 15000 mm/min weight of the machine ca. 55 t

## **TECHNICAL DESCRIPTION**

power capacity - table

Technical details and information subject to amendments and errors.

AC 20 TM 1800

Stock no.: 1022-2347

Used CNC vertical lathe for turning, drilling and milling First machine installation in the year 2011.

Max. workpiece diameter: 2040 mm Max. workpiece height: 1270 mm

Ram stroke: 1250 mm

Max. workpiece weight: 5000 kg (per pallet/chuck)

Table speed range: 1.0 - 320 rpm

Table drive motor: 100 kW

Drilling and milling spindle: 37 kW

Crossbar travel: 2 steps of 200 mm each Total electrical connection value: 218 kVA

CNC control: Siemens 840 D

Number of NC axes: 4 (X, Z, C, crossbar adjustment)

Travels:

X-axis: -1650 to + 2165 mm

Z-axis: 1250 mm

Rapid traverse X- Z-axis: 15 m/min Number of tool magazine spaces:

80 spaces in the chain magazine, of which 60 x HSK 100 and 20 x Capto C6

Disc magazine 12-pos. for rotary holders and attachment heads

Coolant system with filter and circulation unit

Chip conveyor
Oil-mist-extractor

1 pallet with jaws, diameter 1800 mm

1 hydraulic chuck with base jaws, diameter 1800 mm

Various drilling and milling heads

2 measuring probes

Several turning tool holders

#### Special feature:

Pallet changer with two stations, equipped with a face plate Ø1800 mm and a six-jaw lever compensation chuck with mechanical centrifugal force compensation Ø1800 mm.

Note:

The machine is in a pit.

Technical details and information subject to amendments and errors.

KN<sub>6</sub>

AC 20 TM 1800

Stock no.:1022-2347

#### Condition description:

The cross roller bearing on the Carnaghi was replaced about half a year ago. The Siemens components in the control cabinet were also completely replaced at the end of 2023.

The machine also has a measuring probe for tool measurement and an external Renishaw measuring probe for workpiece measurement.

As a special feature, the machine also has a measuring probe installed on the Z-axis

(Z1-axis). This brings an advantage in terms of accuracy and time, as the tool does not have to be put down for measuring. However, it is currently shut down and should be overhauled when it is put back into operation. The machine also has a Rotomors six-jaw lever compensating chuck with centrifugal force compensation, which was completely overhauled in 2020/21.
